

TREASURE HUNT DUBROVNIK

In this treasure hunt, participants will go on a quest for hidden treasure inside of the ancient city walls of Dubrovnik, visiting some of the Dubrovnik's most famous monuments such as the Rector's Palace and the cathedral along the way.

Guests will be divided into teams and first missions will be assigned. For each completed mission or problem, teams will receive instructions that will lead them to the treasure. Teams will be questioned at the end about the sights they have visited, and correct answers given will increase their total score. So it is not all about how speed but also how much you think on the way!

The program can start in your hotel or anywhere around the Old Town, and end in a bar or a restaurant with lunch, dinner or a social event.

Extras can be added to enrich the program: instructions printed in old script on ancient paper, renaissance actors, archery, and prizes for the teams.

Other treasure hunts in Dubrovnik are available upon request: cultural treasure hunt, culinary treasure hunt, stag & hen treasure hunts
